

Faringdon Infant School E-Learning Code of Conduct

I can use technology to help me with my learning at school and at home. School has given me access to websites like Purple Mash, Bug Club, NumBots, Phonics Play and Microsoft Teams to find information, play and do my work at home and at school. When I use these websites and technology, I promise to be safe and use them carefully by doing these things:

I will keep my usernames and passwords a secret so nobody can copy or change my work.

I will keep my personal information safe and not share it. My personal information includes my name, age, address, school, phone number, photos, or information about my friends.

I will always be polite and kind when I send messages to others.

I will always tell my teacher, parent, or a grown-up I trust if I see, hear or read anything which makes me feel uncomfortable when I use technology.

I will treat technology with respect and promise that I will look after it and share it carefully with my friends in class or my family at home.

I will follow instructions and check with a grown-up I trust to see if the websites, games, and apps that I use are suitable for my age.

I will use technology sometimes but also explore other activities and try new things that don't use technology.

I have written my name and the date to show I agree to follow these rules when I use technology at home and at school.

Child's Name: _____

Date: _____

Parent's Signature: _____

Date: _____
