Dear Parents and Carers of Cherry Class,

POSSIBLE COVID CASES IN CHERRY CLASS

We wanted to make you aware that we have had 3 reports of positive Lateral Flow Tests for children in Cherry Class, all of whom were in school yesterday. While we are aware that all of these children will now be awaiting confirmatory PCR test results and are not in school today, we did think it was wise to make you aware of this situation and to re-iterate that children presenting with any one potential COVID symptom should be taken for a PCR test straight away and should remain at home while they await the result. We know how very difficult this is, given that young children are often not symptomatic or only have minor symptoms. We are grateful to our parents and carers for trying their best to pick up on any risk whenever possible.

We will keep you informed about confirmation of cases as soon as we are able to do so, and will consult with public health and Oxfordshire County Council about any appropriate actions in the event that we do have a cluster of positive cases.

Thank you for continuing to support with keeping one another safe despite the ongoing challenges.

Best wishes,

Mrs Sally Robins

Head Teacher
